

QUARK 45

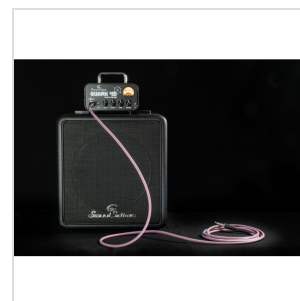

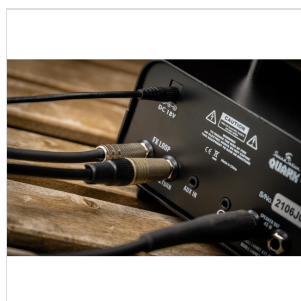

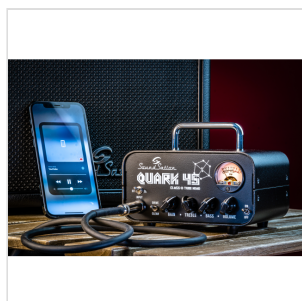

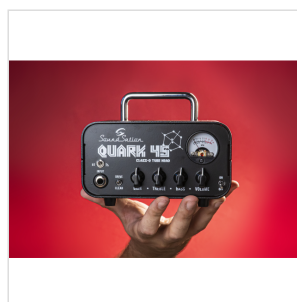

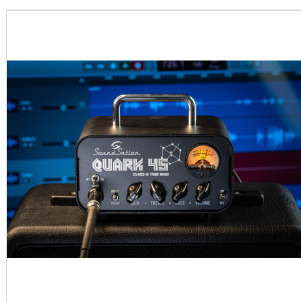

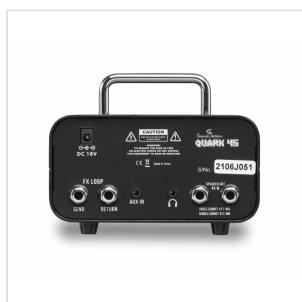

MICRO TUBE HEAD IN CLASS D - 45W

Ultra light, ultra compact and powerful: QUARK 45 unleashes **45W RMS** with its **class D** power amp and tube preamp featuring **12AX7 + FET** technology.

No harsh or artificial tones, just analog-enriched, dynamic and distinctive voice ranging from cristal clean to biting distortion: whatever you need for your licks and riffs is just one tweak away.

QUARK 45 spots a remarkable arsenal of features for such a micro-sized machine: **2 channels**, **FX loop**, **Aux-In**, **Phone-Out**, **2 speaker outputs**, **BT connection** and analog **VU-Meter** for signal monitoring during studio recording.

Great as back up head, sure, but incredibly performing during practice, rehearsals and recording sessions.

HIGHLIGHTS

ULTRA LIGHT, ULTRA COMPACT AND POWERFUL

QUARK 45 unleashes 45W RMS with its class D power amp and tube preamp featuring 12AX7 + FET technology. In less than 1 kg!

DUAL CHANNEL, DYNAMIC AND RICH TONE

Two switchable channels raging from cristal clean to biting distortion. With plenty of juicy crunch along the way!

BT CONNETIVITY

Activate BT, tap your device and you are ready to play along your favourite tracks.

ANALOG VU-METER

Avoid any unwanted clips and distortion during your recording session monitoring your input signal.

FX LOOP

Connect all the outboard you want via FX Loop and shape your FX chain preserving your guitar tone.

SO MANY FEATURES FOR SUCH A MICRO-SIZED MACHINE

2 channels (clean/dist), FX loop, Aux-In, Phone-Out, 2 speaker outputs, BT connection and analog UV-Meter: believe it or not everything is there!

DEDICATED CABINET AVAILABLE

Try it with the dedicated compact cabinet GC-110CT featuring 1x10" Celestion Tube speaker.
