

KEYLI-61

ARRANGER KEYBOARD WITH 61 TOUCH-SENSITIVE KEYS AND RECHARGEABLE LITHIUM BATTERY

KEYLI-61

Soundsation KeyLi-61 is a keyboard designed both for beginners who want to start playing and for those musicians who already use an arranger keyboard.

Equipped with 61 touch-sensitive piano-type keys, 300 different sounds, 300 accompaniment rhythms, and 80 demo songs, this keyboard allows the user to play and enjoy various musical genres.

All the functions present in the KeyLi-61 keyboard are easily accessible thanks to a simple and intuitive control panel.

Many functions of the KeyLi-61, such as DUAL, SPLIT, REC/PLAY and "Bt Audio Streaming" connection, are normally present in larger keyboards so as to expand the creativity of users.

You can also add a sustain pedal (not included) for more authentic piano performances.

Audio reproduction occurs through two integrated 5 Watt speakers.

KeyLi-61 is equipped with a rechargeable lithium battery with long life, perfect for both school use and musical entertainment performances.

All the functions, the compactness, the possibility of battery operation and the easy transportability thanks to the handle integrated into the cabinet, result in a keyboard with an excellent quality/price ratio.
