

SGS2100

FOLDABLE GUITAR AND BASS UNIVERSAL STAND

SGS2100 was conceived with an easy to carry design, without compromising sturdiness and reliability. It's easy and quick to fold the structure and fold the base supports. Despite of its small size, the stand has tripod structure which is extremely stable. All contact points are covered in anti-scratch material. Place your instruments without worries, fold and carry SGS2100 easily, anytime.
