

LSR2

2 COLOR MINI LASER

Compact bi-color effect laser easy to use and lightweight to carry. It is perfect for DJ, club, private party or anniversary. The unit is able to project a dynamic set of points and lines through red and green moving laser beams thus creating amazing effects. Setting the SOUND mode the LSR2 will automatically work according to music of the ambience and dynamically adjusting effects. The onboard stroboflash function is available. It comes with a very useful mounting bracket and a tripod for desktop positioning.
