YOUMIX 610 PRO

8-CHANNEL MIXING CONSOLE WITH 6 MONO AND 1 STEREO CHANNELS, 24-BIT 99 EFFECT, USB/BT, PC INTERFACE

YOUMIX 610 PRO

The YouMix Pro mixer series is built to level up your creativity, blending pro-level sound quality and features with the plug-and-play freedom to connect to literally any device — smartphones, tablets, laptops, you name it.

These mini-mixers pack high-res specs into a super portable design, making them perfect for webcasts, podcasts, gaming streams, mobile music sessions, home studios, small gigs, and way more.

What really makes the YouMix stand out is its top-notch mic preamps, crafted with carefully selected components for both input stages and filters. The result? Ultra-low noise and huge headroom, so your vocals and instruments come through crystal clear every time.

Another big win: the built-in USB audio interface. With 16-bit/48kHz audio and OTG support, you can easily record or play back stereo tracks from your computer or external drives — or hook up your phone or tablet for direct live streaming on YouTube, TikTok, and other platforms.

And don’t sleep on the professional-grade digital signal processing, featuring 99 hand-picked presets to shape your sound exactly how you want it.

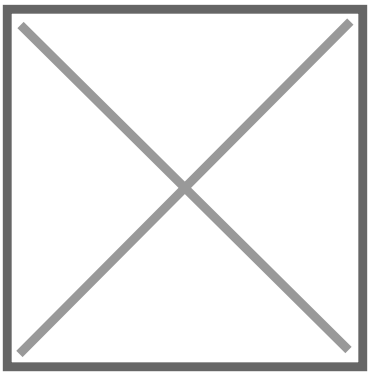

Whether you’re a content creator, a podcaster, a bedroom producer, or a live performer — the YouMix Pro series is your all-in-one tool to create, connect, and sound amazing anywhere.

Bluetooth OTG Function Phantom Power USB Player

HIGHLIGHTS

PLUG IN AND GO LIVE IN SECONDS

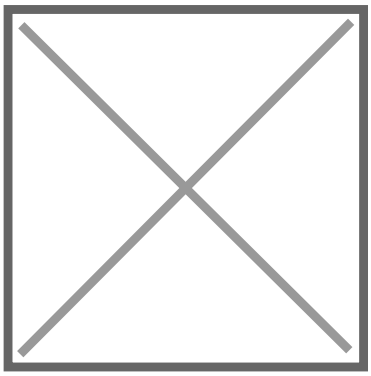

USB OTG (On-The-Go) tech changes the game when it comes to creating content. It turns your compact mixer into a powerful, flexible tool — perfect for podcasts, live streams, mobile interviews, or video content.

With USB OTG, you can hook up your mixer directly to your smartphone or tablet — no laptop or extra gear needed. Whether you're in the studio, on the road, or just out and about, you're ready to record or stream pro-quality audio in no time.

LIVE STREAMING MADE EASY

Record anytime, anywhere. With OTG, you can use XLR mics, add effects, tweak your voice, and get super clean sound — all straight from your mobile device. It's perfect for indie podcasters, YouTubers, or anyone who wants pro-level audio without lugging around a full studio setup. Post next-level content on Instagram, TikTok, YouTube, or Twitch with sound that blows your phone's built-in mic out of the water.

OTG is the go-to tool for streamers, vloggers, content creators, and online teachers who want to stand out. No drivers, no complicated setup — just plug your mixer into your phone with an OTG cable and you're ready to roll.
