# STRING INSTRUMENTS

# Toledo

Toledo EUROPA is a brand new series of classic guitars entirely made in Europe. Material choice, craftsmanship, varnishing and set up: each step is made with the purpose of creating high value instruments.

Woods, carefully selected and stocked in climatized chambers to grant the perfect humidity and temperature in each phase of the process, are crafted with traditional liuthiers techniques fully supported by modern technologies.

### Wood and finishes

All EUROPA series feature solid cedar/spruce tops, while back and sides are made in Indian rosewood, mahogany or beech. These woods are used in different combinations both in luxury glossy and elegant open pore satin finishes, bringing to life a complete array of instruments including classical and flamenco guitars.

### Full respect for the environment

Each guitar is sold with its own origin certificate in compliance to the latest CITES regulation on rosewood (where used).

# Toledo

With the EUROPA series Toledo launches its classic guitars built entirely in Europe. Characterized by a full and full-bodied sound, it counts on a meticulous set that serves perfect playability even to the beginner. Embellished with a glossy finish and golden mechanics, it is an instrument of great value in its market range.

### CLARINDA 44CG - All solid classic guitar with cedar top in glossy finish (Made in Europe)

Toledo EUROPA is a new series of classical guitar entirely made in Europe. Clarinda 44CG is an all solid regular size classic guitar featuring cedar top, Indian rosewood back/sides and golden Van Gent tuners with rosewood button. The full resonance of its all solid woods, the hi-end craftsmanship and the meticulous set up provide a instrument with unmatched value both for advanced students and professionals.

Ramon Garcia

Conceived and built according to the traditional Spanish concept, the Ramon Garcia series combines the beauty and timbre of selected woods with fine craftsmanship. All models have a solid cedar top that gives a warm and full tone. Bands and bottom are, instead, in Mahogany or in rosewood. The flat handle offers the best playability comfort in complex executions. Maple BINDING enriches the line. All models are equipped with D'Addario EXP strings for a natural and long lasting sound.

## AYMARA Series

The Cajon is a percussion instrument born in Perù. At the begin it was an adapted fruit shipping crate. The modern Cajon has been modified during the years and is now made with more professional materials that create a better sound and let this instrument be used in many music styles. The AYMARA series are made in SIAM OAK with Natural Front panel and black satin body. The 14 tuning screws ensure the most precise tuning ever. This model features 3 internal snare assembled in the top part of the cabinet. The tuning key is included in each pack.

## P810-34 - Virtuoso Pro solid spruce top hand made 3/4 doublebass with maple back & sides

Handcrafted with the best materials, P906 is a visually stunning doublebass with rich and deep sound, thanks to the solid spruce top. The maple back & sides contributes to brighten the sound. With its classic design in violin shape, the hand varnished alcohol finish is in satin light brown, enhancing the visual appeal of wood. P906 is also equipped with ebony fingerboard, for great feeling and sound response. Including bow and padded carrying bag, it's the perfect instrument for the advanced student.

- Solid spruce top
- Flamed maple back and sides
- Ebony fretboard for perfect feeling
- Alcohol hand varnished satin finish in light brown color
- ebony tailpiece with tuners
- Hexagonal brazilwood bow with ebony frog and natural hair
- Finish satin
- Padded backpack style bag with pockets

<b>Double bass</b>	68-72	62-67				

**Carbon Fiber Bows**

During the recent years, carbon fiber bows became widely popular. The reason is that they offer similar functionality of those in pernambuco wood, but at a sharply lower cost. Lightweight, balance and easy playing, as well as the produced sound, are essentially the same. Other than the cost, the carbon fiber offer other relevant advantages. They are more resistant and they essentially last longer. Bottom line, CB-BLK bow is a great choice for both students and professionals.

- Stick in carbon fiber
- Round stick
- Ebony frog
- Perloid parisian eye with silver ring
- Natural hairs

# BELLOW INSTRUMENTS

Soundsation introduces its new line of accordions: Infinito. The name Infinito takes its origin from our homeland: "le Marche" region in Italy. Our town has a long tradition in accordion manufacturing and made the accordion famous worldwide. Designed in Italy and built with Italian supervision and quality controls, the Infinito series brings entry-level instruments at a new level with unmatched value for money. The infinito series features a wide range of model from 48 to 120 basses.

## 0903 - Universal accordion stand

The accordion is an heavy instrument, specially in its 120 bass version. Playing for long time can be tiring and you may want to focus on your performance, specially during concerts. Or simply you want to show the accordion in your shop, giving chance to your visitors to test it. To both the issues, 0903 stand could be your solution. Stable and super strong, can hold the heaviest instruments and allow to play sitting or standing thanks so its adjustable height. Fits all kind of accordion and hold safely even the heaviest models

- Safely hold your accordion and allows to play without carrying it
